EXPERIENCE

•Xcellence-IT   *Oct 2024 - Present*
.NET Developer   Surat

- Engineered and deployed production-grade features for a high-traffic e-commerce platform (Karavan), enhancing seller onboarding workflows, order processing reliability, and system performance.
- Designed secure, maintainable backend modules using ASP.NET Core, Entity Framework, and SQL Server, ensuring high availability and data integrity.
- Acted as the primary technical contributor for the client project, owning feature delivery, defect resolution, and performance optimization.

•Xcellence-IT   *Aug 2023 - Oct 2024*
Junior .NET Developer   Surat

- Implemented end-to-end payment gateway integrations (Razorpay, Cybersource) within ASP.NET Core MVC applications, including secure transaction handling and webhook processing.
- Developed and extended NopCommerce plugins, including a custom Page Builder built with GrapesJS, enabling dynamic, drag-and-drop content management.
- Optimized database queries and application workflows using SQL Server and Entity Framework to improve response times and reduce server load.

•Xcellence-IT   *Dec 2022 - Aug 2023*
Intern .NET Developer   Surat

- Built multiple NopCommerce plugins (GST, Most Viewed Products, Slider) by extending core architecture, services, and middleware components.
- Applied ASP.NET Core MVC patterns, ViewComponents, and ActionFilters to develop modular, testable, and reusable application components.

EDUCATION

•Chandaben Mohanbhai Patel Institute of Computer Applications, Anand   *2021-2023*
Master of Computer Application   CGPA: 6.51

•Parul Institute of Computer Application, Vadodara   *2018-2021*
Bachelor of Computer Application   CGPA: 6.84

TECHNICAL SKILLS

Languages: C/C++, C#, HTML/CSS, JavaScript

Developer Tools: GitHub, Git, GitLab, TortoiseGit

Cloud/Databases: SQL Server, MongoDB, Azure Cosmos

Soft Skills: Problem solving, critical thinking, multitasking, time management, teamwork

Areas of Interest: Full-Stack Development, .NET, Industry Trends, Scalable System Design, Security, Performance Optimization

KEY PROJECTS

•Karavan (E-commerce Platform)   *Oct 2024 – Present*
ASP.NET 8.0, SQL Server, SignalR

- Implemented multi-tenant architecture using wildcard subdomains and tenant-aware middleware.
- Built real-time messaging and notification pipelines with SignalR.
- Integrated Amazon S3, ShuftiPro KYC APIs, and payment gateways with secure webhook handling.

•Netflix Clone   *In Progress*
MongoDB, Express.js, React, Node.js

- Developed RESTful APIs with JWT authentication and role-based authorization.
- Designed content recommendation logic using MongoDB aggregation pipelines.
- Implemented media streaming workflows and modular service architecture.
