SUMMARY

I'm a .NET Developer with experience in software development. I am currently aspiring to be a full-time Full-Stack Developer. I'm highly motivated and value perseverance, teamwork, and dedication. I am skilled in Agile methodologies and best practices in software development, focusing on scalable and secure solutions.

EXPERIENCE

•Xcellence-IT   *Oct 2024 - Present*

.NET Developer   Surat

- Built real-time Chat and Notification features using SignalR for the Karavan project, improving user engagement and system interactivity.
- Developed a Seller Storefront for Karavan using wildcard subdomains, enabling sellers to create and manage their own personalized storefronts, improving usability and business scalability.
- Integrated Amazon S3 for image storage, ShuftiPro for business verification, and implemented secure payment gateway integration.

•Xcellence-IT   *Aug 2023 - Oct 2024*

Junior .NET Developer   Surat

- Delivered Payment Integration solutions using RazorPay and Cybersource, leveraging MVC concepts in ASP.NET Core and SQL.
- Developed custom plugins, including a Pagebuilder using GrapesJs, showcasing extensive expertise in NopCommerce.
- Provided client support, resolving complex bugs efficiently, emphasizing collaboration and communication skills.

•Xcellence-IT   *Dec 2022 - Aug 2023*

Intern .NET Developer   Surat

- Acquired significant expertise in NopCommerce's architecture, specializing in constructing multiple plugins like GSTPlugin, MostViewed Product, and SliderPlugin.
- Delved into ViewComponents, ActionFilter, and gained a deep understanding of MVC, focusing on clean code and optimization.

PERSONAL PROJECTS

•All-in-One Fitness WebApp   *March-April 2023*

Developed using ASP.NET 8.0 and SQL Server

- Tools & technologies used: HTML, CSS, JS, ASP.NET, SQL
- The system offers features such as personalized diet plans, daily exercise videos, and progress tracking tools, utilizing best practices in database design and performance optimization.

•Netflix Clone   *Currently working*

Developed using MERN

- Tools & technologies used: MongoDB, ExpressJS, ReactJS, NodeJS
- Developing a Netflix clone with functionalities including user authentication, content categorization, recommendation algorithms, and video streaming capabilities, highlighting skills in microservices and RESTful API development.)

•Form Application   *June 2024*

Developed using .NET Core 8

- Tools & technologies used: ASP.NET 8 Web API, Azure Cosmos DB
- A .NET Core 8 web application with Azure Cosmos DB for NoSQL storage. Features dynamic question creation and two user roles, documented using SwaggerUI.

EDUCATION

•**Chandaben Mohanbhai Patel Institute of Computer Applications, Anand** *2021-2023*
Master of Computer Application CGPA: 6.51

•**Parul Institute of Computer Application, Vadodara** *2018-2021*
Bachelor of Computer Application CGPA: 6.84

TECHNICAL SKILLS AND INTERESTS

Languages: C/C++, C#, HTML/CSS, JavaScript

Developer Tools: GitHub, Git, GitLab, TortoiseGit

Cloud/Databases: SQL Server, MongoDB, Azure Cosmos

Soft Skills: Problem solving, critical thinking, multitasking, time management, teamwork

Areas of Interest: Full-Stack Development, .NET, Industry Trends, Scalable System Design, Security, Performance Optimization
